Accessible OKINAWA

Fun for everyone!
Enjoy a barrier-free Okinawa adventure.

HISTORY

The history of Okinawa has been strongly affected by overseas influences unlike anywhere else in Japan.

Prehistoric times in Okinawa lasted up until about the 10th century when hunting and gathering was the main form of subsistence.

In the 12th to 15th centuries, the original Ryukyu Kingdom developed due to trade with Asian countries and built original cultures.

In the 19th century, Ryukyu followed Japan on the path to becoming a modern country and became part of the nation building of Japan as Okinawa Prefecture.

When Japan surrendered in 1945, Okinawa was placed under American Army rule for 27 years.

Fun for Everyone! Enjoy your Okinawa Journey.

Okinawa is an arc of more than 160 islands dotted throughout Japan's southern sea.

Once known as the Kingdom of Ryukyu, Okinawa has flourished as the crossroads for trade with various countries. As the south entrance to Japan close to China and Southeast Asia, it's popular as a resort for tourists from Japan and overseas.

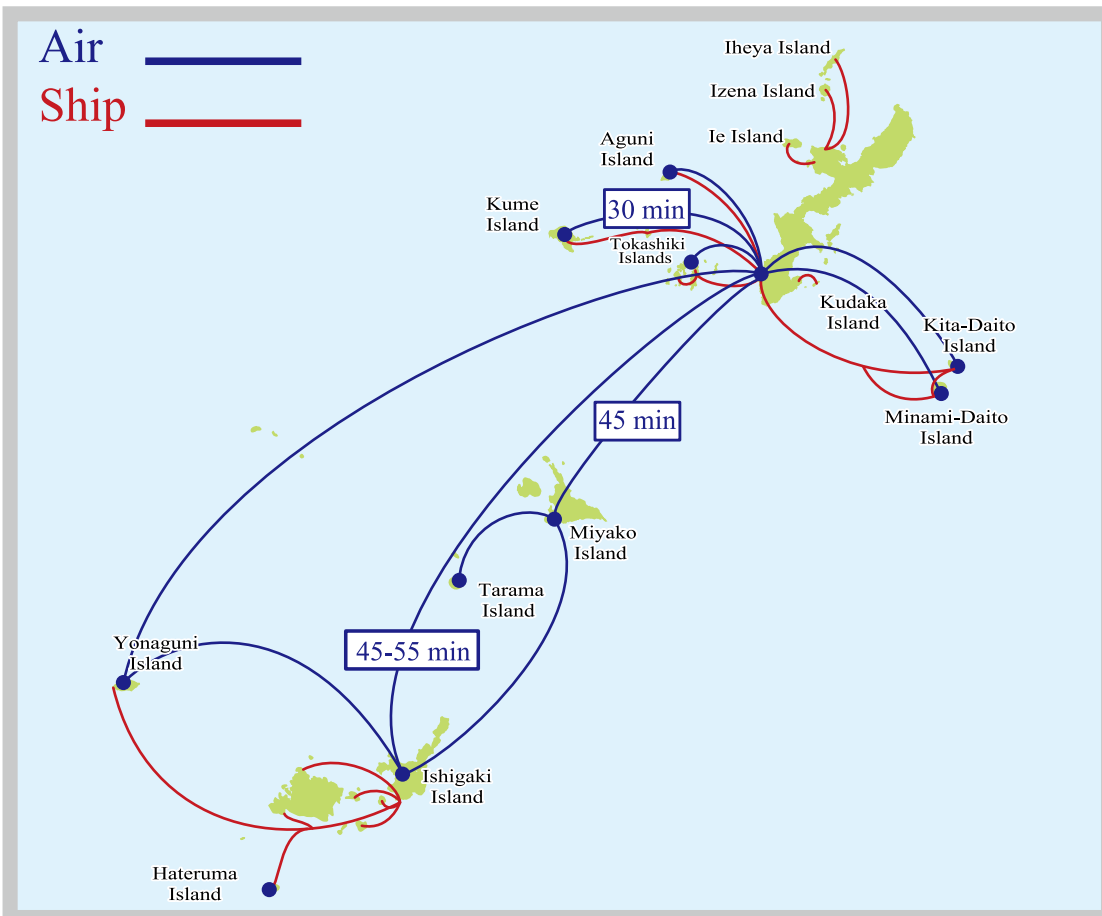

As Okinawa strives to be the world standard for resorts, Okinawa also aims to become a tourist destination unparalleled in its friendliness to everyone.

Starting with the "Okinawa Barrier-Free Tourism Declaration" in 2007, we have been creating an environment that allows anyone to travel easily and pleasurably and establishing facilities such as the Tourist Information Center for People with Disabilities and Seniors at Naha Airport. In the future, the number of Barrier-Free facilities will increase, including activities, sightseeing, cuisine, and accommodation.

Various barrier-free information for enjoying your trip to Okinawa is collected in this book. We sincerely hope everyone will be able to see and experience all the charms of Okinawa.

Kumoji→Matsuo

Kokusai St. and surrounding area

Kokusai St. is called "the miracle mile", because the battle of Okinawa utterly destroyed everything, but the souvenir shops and restaurants that lined the 1.6 km street slowly and steadily recovered. On Sundays, the whole street of Kokusai becomes a pedestrian zone, making the main street of Okinawan even livelier.
